

SE 43 Training programme content

Advanced operation of LIST[®] Sensor cable systems

- Objective:** Operation of LIST[®] sensor cable systems (linear heat detector), with the components SEC 20 and LISTcontroller, on the second operator level.
- Participants:** Operators and installers of the LIST sensor cable system (linear heat detector).
- Content:** System introduction, components & topology; measuring principle; alarm criteria, threshold values & alarm evaluation; interfaces and protocols; LISTcontroller operation on the front panel and via the web interface; interpretation of the data in the LISTcontroller; threshold evaluation and adjustment; simulation and revision settings
- Services:** Training material, beverages; lunch snack (1 x)
- Prerequisite:** Fundamentals of fire detection technology are advantageous; laptop with current web browser.
- Course fee:** 600,00 € 600,00 € plus VAT per participant;
from 3 participants 480,00 € per participant
from 5 participants according to offer
- Location:** Am Sandberg 34, 84424 Isen, Germany
- Duration:** 1 day, 09:00 to 17:00
- Course language:** English

SD 43 course registration

Advanced operation of LIST[®] Sensor cable systems

Conditions: binding registration at least 3 weeks before the course starts,
select a desired date;
in case of cancellation within one week before the start of the course, a
cancellation fee of 100 € will be charged.

Course dates: 12. April 2018 25. October 2018

Participants:

1 st participant	<input type="text"/>
2 nd participant	<input type="text"/>
3 rd participant	<input type="text"/>
4 th participant	<input type="text"/>
5 th participant	<input type="text"/>
